WORK EXPERIENCE

Shopdango

June 2022 – November 2022

Front-End Developer

- Developed 20+ custom reusable components using React to drastically reduced development time and improve usability.
- Coordinated within an Agile development team to efficiently define project scopes and meet sprint deadlines, ensuring 100% of the features requested by clients were delivered on-time and within technical specifications.
- Architected and integrated MongoDB databases with front-end interfaces to enable data synchronization in real time, reduce manual page refreshes, and improve user experience with data-heavy applications

EDUCATION

Master of Science

Boston University

Computer & Information Systems

May 2026

SKILLS

Front-End

- React
- JavaScript
- HTML
- CSS
- Vue

Back-End

- MongoDB
- RESTful APIs
- Python
- GraphQL
- NoSQL

Mobile
